EDUCATION

Sun Valley International School **Ghaziabad, India**
Candidate for Science stream, 2021
Cumulative GPA: 3.9/4.00 (94%)

JSS Academy of Technical Education, Noida **Noida, India**
Bachelor of Technology: Information Technology, 2025
Cumulative GPA: 3.11/4.00

SKILLS

◎ **Technical Skills:** Proficient in Next.js, React, Redux Toolkit., MERN stack, TypeScript, JavaScript, Tailwind CSS, HTML and CSS .
◎ **Soft Skills:** Strong communication, problem-solving, and teamwork abilities with proven leadership in dynamic projects.

PROFESSIONAL EXPERIENCE

Binmile, Frontend Intern, November 2023 – December **Noida, Ghaziabad**

- Developed a responsive web-based movie app that fetched movie data from external APIs, allowing users to explore movies, mark favorites, and view details.
- Implemented personalized user experiences with features like favorite movie lists and detailed movie information.
- Overcame state management challenges by mastering Redux Toolkit with mentor guidance and self-practice.
- Enhanced skills in TypeScript, improving the efficiency of data handling and component interactions.
- Gained proficiency in GitHub for version control and collaborative project workflows.

PROJECTS

ALUMNI PORTAL
- A Next.js full-stack application with protected routes and role-based access control, allowing alumni to log in, create profiles, and connect with others.
- Implemented using NextAuth for login, signout, and middleware for role-based access, restricting certain pages to authenticated users and admin-only access.
- Special admin privileges, with features like alumni verification and management, secured by middleware to restrict access to authorized users only.

- Alumni creation form built with Formik for state management and Yup for robust validation, ensuring accurate data entry and smooth user experience.

CASE-COBRA
- Complete e-commerce shop built in Next.js 14 with a stunning landing page.
- Custom phone case configurator inspired by Apple, providing a sleek user experience.
- Admin dashboard for managing orders and users, with authentication using Kinde.
- Modern UI with drag-and-drop file uploads and TypeScript throughout.
- Link: https://github.com/bakshish123/caseCobra.git

E-WASTE-MANAGEMENT (Team Project)
- Developed a full-stack waste management website using the MERN stack.
- Integrated Google Maps API to help users locate nearby waste management centers.
- Implemented a login/registration system for user authentication.
- Added a reward system to encourage proper waste disposal.
